To: Frances Mizuno, Assistant Executive Director

From: Bob Martin, Engineering & Planning Manager

Subject: O&M Report for April 2018

Operations Department

The C.W. "Bill" Jones Pumping Plant (JPP) began the month of April at four units but was decreased to three units on April 4th due to operational capacity limitations at the Giannelli Pump/Generating Plant. Pumping was increased back to four units on April 8th due to available water in the Delta but was decreased on April 11th due to the NMFS BO RPA Action IV.2.3 for steelhead. Pumping was further decreased to one unit on April 12th, increased to three units on April 15th, and decreased again to one unit on April 18th all due to Delta inflow/outflow controlling. Pumping was increased to two units on May 7th for the rest of the month.

Total pumping for the month of April at the JPP was 113,549 acre-feet. The O'Neill Pump/Generating Plant pumped 74,754 acre-feet and generated 7,292 acre-feet. DCI operated for reverse flow to convey 8,642 acre-feet of SWP water from DWR California Aqueduct (CAAQ) to the DMC due to liner repair in the CAAQ upstream of the O'Neill Forebay.

The Federal share in San Luis Reservoir on April 30th was 862,457 acre-feet as compared to 966,464 acre-feet on April 30th, 2017.

Releases from Friant Dam for the San Joaquin River Restoration Program (SJRRP) ranged from 350-662 cfs for the month of March. Flows into the Mendota Pool from the SJR ranged from 112-257 cfs. All the inflow was subsequently released past Sack Dam.

During the month of April, Canal Operations staff members performed open channel and closed-pipe flow measurements, routine patrols, bi-weekly meter readings, well soundings, and meter maintenance.

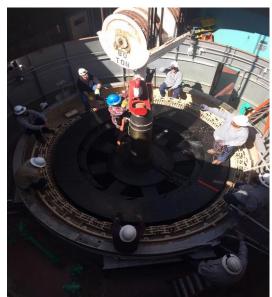

Civil Maintenance Department

The Civil Maintenance crews worked on the following projects for the month of April: Chemical and mechanical weed control, erosion repairs on the Newman Wasteway, continued installing DMC roadway gates in the Gustine area (Gravel Pit, Taglio, and Snyder Roads), grading of DMC and SLD operating roads, DMC drain inlet cleaning, clean up and repairs to DMC at Tracy Blvd due to gravel truck accident, replaced DMC turnout gates at mileposts 61.84-L and 31.60-L, continued replacement of wooden staircases along DMC, fabricated test can lids, removed silt from DMC turnouts with compressed air, and maintenance and repairs to float lines, signs, fences, and gates.

Plant Maintenance Department

Electrical/C&I/SCADA Staff: Completed installation of the power supply for the JPP Unit 6 rewind contractor's construction office, located and marked the DMC supervisory cable in several areas, continued working with the contractor for the North Valley Regional Recycled Water Program (NVRRWP) flow meter interface to SCADA, continued working with AT&T to provide fiber communications to Tracy complex and began running conduit in Control Building basement, completed installation of a sonic transducer for the O'Neill plant sump level detection and pump control, continued installation of fire detection system at O'Neill, troubleshoot DCI reverse-flow flow meter intermittent operation, began replacement and update to Exchange Contractor's DSP web portal, assist Engineering Department with SGMA telemetry, replaced flexible conduits at DMC Check 10, troubleshoot DMC Check 19, gate #2 motor issue, cleaned DMC Check 21/Mendota Pool meter, and continued to provide support to the Avaya phone system.

Mechanical Staff: Completed removal of rotor and associated equipment for the JPP Unit 6 rewind contractor (see photos below), replaced wheel pit sump pumps in JPP Unit 3 and JPP Unit 5, continued blasting and coating of stoplogs for DMC turnout 93.25-R, and installed a new vacuum sustaining pump for OPP Unit 1.

Prepping JU-6 Rotor for Removal

JU-6 Rotor Removed

OPP Unit 1 main unit rehabilitation: Motor set in place and secured. Contractor on site May 8th to begin alignment checks/adjustments. Anticipate unit available by May 31st.

Engineering and Planning Department

The Engineering & Planning Department staff worked on the following projects this month: JPP unit rewind project management, Sustainable Groundwater Management Act compliance activities, DMC Flowmetering evaluation, lower DMC check structure stoplog and guide replacement project, OPP U-1 pump & penstock rehabilitation projects, concrete lining damage at DMC MP 42.50-R investigation, drawing and website management. Planning support was provided for civil, mechanical & electrical maintenance activities.

Majority of Department staff attended a First Aid/CPR/AED refresher course.

Land Management Activity Summary:

A total of Two (2) access permits were issued this month. Permit P1902004 issued to Ruggeri-Jensen-Azar (RJA) to conduct a topography survey for the Corral Hollow Road bridge widening project at MP14.80. Permit P1902006 was issued to ENGEO Inc. to conduct geotechnical boring for the bridge widening project a Corral Hollow Road (MP14.80) along the Delta-Mendota Canal right-of-way.

Worked with CCID on requirements for temporary and permanent turnout requirements at MP84.39-L. Received recorded easement for Vega at NWW MP4.95, and a page was left out of the recording by either the County or Reclamation. Land Surveyor is currently working with the County to determine solution as Reclamation does not want to re-record the document. Reviewed and commented flowmeter study from FCWD for MP109.45-R turnout. Prepared design drawings to fix the concrete flume, located just downstream of Check 2, that was damaged by a gravel truck last month. Notified DPWD of encroachment issues at MP18.58-L. Continued providing support to Reclamation on DMC and Wasteway bridges. Worked with Stanislaus Towing on work done on canal without an active activity permit. Worked with Provost & Pritchard on requirements to install pipe across San Luis Drain. Began working with San Joaquin County on DMC bridge guard rail extensions. Their plans are approximately 95% complete.

Safety Department

Support for JPP Unit 6 Rewind Project, fleet support for FY19 and FY20, CPR classes for employees, 1 accident investigation, repair to DMC at Check 2 support, new employee orientation, ordering material to support new silica regulations.

EXTRAORDINARY O&M & CAPITAL PROJECTS

DELTA-MENDOTA CANAL (DMC)

Concrete Lining Repair Design Only (1800064)

Status: Continued gathering data on liner damage d/s of Ward road. Petrologix completed field work, and will submit their findings report early May.

<u>O&M Road Maintenance Program - Phase 7 of 10 (1800334)</u> Status: Project complete.

<u>DMC Flow Measurement Project – Phase 1 (1700112)</u> Status: No activity this month.

Replacement of Stoplog Guides on Lower DMC Check Structures - (1800859)

Status: Fabrication and painting of the stoplog guides is complete. Design of the concrete stoplogs is in progress. Current plan is to contract out the fabrication of the concrete stoplogs and have them read for installation during the winter months when lower DMC flows are reduced.

C.W. "BILL" JONES PUMPING PLANT (JPP)

JPP - Arc Flash Study (1800167)

Status: JPP Arc Flash Hazard Survey was completed in December 2017. The draft report is expected to be received from Reclamation in May for SLDMWA review before the report is finalized.

JPP Excitation Cabinet & Control Panel Refurbishment (1800333) Status: No activity this month.

O'NEILL PUMPING/GENERATING PLANT (OPP)

<u>Design New Access Opening near Pump Bowl (1800332)</u> Status: Comments received from USBR. Review comments to be addressed in mid-May.

Rehabilitate Pump Assemblies Unit No. 1 (1800196)

Status: Re-assembly of the unit is completed. Shaft alignment is scheduled to begin on May 8th. The unit is expected to be in service by the end of the month.

Rehabilitate Unit No. 1 Penstock Interiors (1800061) Status: Project complete.

Unit Condition Assessment (1800168) Status: Project complete.

TRACY FACILITIES (TFO)

None

EXTRAORDINARY O&M & CAPITAL PROJECTS

C.W. "BILL" JONES PUMPING PLANT (JPP) - CAPITAL PROJECTS

<u>JPP Unit No. 6 Rewind Project Management Activities (PO No. 183673)</u> Consultant: Pacific Power Engineers, Inc, Rancho Cordova, CA Project Engineer: David Roose, PE

<u>Scope of Services for April 2018</u>: Services for April included tasks in four distinct areas including 1) Task 1: Submittal (stator coils & core) 3. Travel to Brownsville Texas: (32/32 hours), 2) Task 1: Submittal (stator coils & core) 2. Submittal review & approval: (26/120 hours), 3) Task 2: Heat Run, Vibration, Noise & <u>Centerline</u> Process Inspection 1. 3 days onsite: (24/24 hours), and 4) Task 3: Project Coordination & Inspections at Jones: (60/560 hours).

Month of April primarily was focused on-site centerline measurements, lamination removal to obtain design information, RTD location verification, submittal coordination and review, and meeting with NEC and subcontractors to confirm on-site measurements. David also traveled to Brownsville, Texas and performed a factory inspection and reviewed initial winding and stator core submittals with NEC engineering. Lastly, David provided a detailed cost benefit analysis for the rewind of the next five units at JPP which resulted in over \$2 Million savings by performing the next five rewinds on one contract.

Highlight of April activities:

- Finalize change order for JPP Unit 6 field poles re-insulation
- Provide a cost/benefit analysis for JPP future rewinds
- Validate and document RTD locations within Unit 6 stator
- Coordinate and participate on centerline measurements and lamination removal with NEC/SLDMWA
- Project coordination for submittal review with USBR
- Submittal tracking and review
- Review design winding and stator core submittals with NEC Engineers
- Inspect NEC factory at Brownsville Texas
- Calls with NEC to discuss redesign of stator winding and core
- Participate in Weekly JPP Calls with NEC

Metrics:

Task 1: NEC Design Review with USBR, NTP Discussions: \$8,745 (Feb.); \$7,155 (March)

Task 1: Submittal review & approval: \$12,190 (March), \$6,890 (April)

Task 1: Travel to Brownsville Submittal Review: \$8,480 (April)

Task 2: Heat Run, Vibration, Noise & Centerline Process Inspection: \$6,360 (March), \$6360 (April)

Task 4: Project Coordination \$15,900 (April)

Travel to Date: \$1011.89 (Feb), \$378.79 (March), \$1,885.37 (April)

Percent billed versus budget to Date: \$75,356.05/\$469,970 = 16% of Budget
